NatureScreensaver contains a total of 64 incredible animations. You will see rivers, waterfalls and lakes. During the transition effects from one scene to the other you will hear

What's New in the Canyon Screensaver?

To see the beautiful canyon, listen to the peaceful sounds of nature, visualize a river flowing between the canyon walls. The river goes through a canyon, and as you look down, you see the rocks and the vegetation of the cliffs. In the sky you see skyboxes with clouds which come together in one, and at times the river swells and emits a powerful splash. On the banks are trees and bushes, some of which are covered with snow, which is torn away by the wind. A snowstorm is coming through the upper area of the canyon. The river is full of water; strong turbulent waters sweep through the rapids. It continues, flows with a gentle movement, turns, and becomes calmer. This is the most beautiful moment: the tranquil mellow river, the steep cliffs and the gentle and quiet air, the beautiful winter scenery and the snowy landscape. What's new in the Canyon Screensaver Version 2.2.0: ♦ Added support for "Midnight" screen savers. ♦ Updated the clock text in "Steaming Cloud" screensaver. ♦ Added new sounds to the "Earthquake" screensaver. ♦ Added support for Intel 64bit. ♦ Improved the performance of the "Earthquake" and "Snowstorm" screensavers. ♦ Added 3 more animation sequences to "Tree Line" screensaver. ♦ Added more sprites in "Steaming Cloud" screensaver. ♦ Added automatic layout of the Earth & Trees objects in the "Earthquake" screensaver. ♦ Added automatic layout of the Water effects in "River" screensaver. ♦ Fixed crash of the screensaver during loading ♦ Fixed a bug in "Canyon" screensaver. ♦ Fixed a bug when a player object was displayed at the same time as a sprite. ♦ Fixed a bug when a player object was displayed during a pause of the screensaver. ♦ Fixed a bug when the amount of CPU cores was 64. ♦ Fixed a bug when sound was not played during loading. ♦ Fixed a bug in "Canyon" screensaver when the screensaver was paused. ♦ Fixed a bug in "Canyon" when it was stopped when the user logged in as administrator. ♦ Fixed a bug in the "Tree Line" screensaver when the CPU was 32bit. ♦ Fixed a bug in the "Tree Line" screensaver when there was an error during
