#### What's New In Diffuse?

Music syncer for your Dropbox, Amazon S3, Torrents, Windows Media Player, CD's, and even your portable hard drive. You can see the artist and album for each track. Download Diffuse (via Patreon): Diffuse is open source. All of the code is on GitHub. -----

---

FAQ Q: Why does it say I have 0 tracks? A: It needs time to index all of your music. Q: Why is it slow? A: Indexing is the big bottleneck. It takes longer if you have many tracks. Q: I have over a thousand tracks! A: I don't know why. Q: Why can't I add new sources? A: It needs a special permissions. Q: Why do I get a error message and it doesn't start? A: I don't know why. Q: Why doesn't the thumbnail show up for the cloud sources? A: Probably

---

because it doesn't have a thumbnail. Q: Why can't I add more than 20 sources? A: It needs a special permissions. Q: Why can't I customize the desktop icon? A: It needs a special permissions. Q: Why can't I customize the window background? A: It needs a special permissions. Q: Why can't I customize the about dialog? A: It needs a special permissions. Q: Why can't I customize the folder list window? A: It needs a special

---

permissions. Q: Why does the hotkey window show up over the top of the window? A: I'm not sure. Q: Why can't I see the song name? A: I don't know. Q: What is the official release date? A: It's not ready yet. I'll release it when it's ready. !  
[Diffuse: an elegant audio player that syncs to the cloud]( [Diffuse \(Patreon link\)](#) ) is an elegant audio player that syncs to the cloud. Developed with the Electron framework, this free and open-source application is

---

capable of creating a virtual music library out of all audio tracks from your local disk, IPSF.

---

**System Requirements For Diffuse:**

\* Must be 12 or older. \*  
Windows. \* 2GB RAM  
(recommended 3GB). \* 2GHz  
CPU. \* 500GB of space. This is a  
2D (grid) puzzle game with a grid  
based solution to puzzles. If you  
are new to the puzzle genre, this  
game is definitely an excellent  
starting point. There are three  
types of challenge: 1. Classic  
solve the game is an easy puzzle  
that is optimized for casual play.
