
Fifa 14 Pc Game No Steam Crack

Hi, I have Windows XP with service pack 3, after I unpacked fifa14 and tried to run the game, I got this:

"Procedure entry .
\\Desktop\\FIFA14.exe
cannot be executed on your system. This process can only run successfully on Windows 2000 or later." I have already deleted the game folder which is in C:\\Program Files\\Electronic Arts\\FIFA 14\\ and reinstalled it but it remains the same. Any ideas what could be causing this? 1

answer Hi, I would advise not deleting the files but just deleting the folder. I am

currently in the same situation
as you.
