StickerCam Crack

StickerCam is a fun way to capture and broadcast your webcam with Yahoo, MSN messenger. Add static & animated images, Emoticons, text labels, symbols, filter effects, mirror & transform your webcam image for all to see! Save to AVI video file. Automatically capture Yahoo web cams you view, letting you add non permanent stickers and effects. Thumbnail preview options let you view webcams without cluttering up your desktop. Liven up a boring webcam and customise a unique look. Here are some key features of "StickerCam": ⏺ Record any number of Yahoo! Messenger Webcams as you view them - Including your own! ⏺ Decorate them just how you want. ⏺ It's a great way to remember and keep, or send that special birthday greeting and other special occasions to family/friends when they can't be there with you. ⏺ Pause recording and start again at any time without breaking video into new sessions ⏺ Or stop recording and create a new session as you wish ⏺ Save the whole web cam session or just a clip ⏺ Simple editor lets you save only what you want ⏺ Stickers let you get creative when recording your webcams ⏺ Give your friends a make over and slap a few accessories around them ⏺ Drag some sun glasses or a new hat over their Web cam ⏺ Animated stickers fill up boring spaces with action ⏺ Save a personalised message by adding text and banners ⏺ Highlight and annotate features on cam ⏺ Drag'n'Drop any number of stickers and backgrounds on the same webcam ⏺ layer and position them any way you want ⏺ Jazz up boring cams with background stickers that automatically position themselves so you can just drag'n'drop ⏺ Give your friends a make over and slap a few accessories around them ⏺ Drag some sun glasses or a new hat over their Web cam ⏺ Animated stickers fill up boring spaces with action ⏺ Save a personalised message by adding text and banners ⏺ Highlight and annotate features on cam ⏺ Drag'n'Drop any number of stickers and backgrounds on the same webcam ⏺ layer and position them any way you want ⏺ Jazz up boring cams with background stickers that automatically position themselves
