Category:Comparison of tools Category:UML (standard) Category:UML tools  
Category:Software that uses WINEQ: DFA to NFA transformation I'm trying to convert a DFA  
to an NFA, and also the inverse of that, to a DFA, in Java. I've managed to transform a DFA  
to an NFA, but I cannot find a way to do the inverse. Here's my code: public class QV {  
public static void main(String[] args) { Scanner input = new Scanner(System.in); String  
message = input.nextLine(); message = removeWhiteSpaces(message); String[] words =  
message.split("\\s+"); String x; for (String word : words) { if (word.equals("start")) { x = word;  
break; } else if (word.equals("end")) { x = "start";
