5 hours of Gameplay Build your Own Battle Tower Defeat the Dark lord with your own custom Battle Tower Instant Item drops with Custom Battle Tower Easy Boss Battles, but hard to win Work your way through levels Stuck on levels? Never know what to do next? Easy to install and just work. Awesome Music The Game "Its been proven that the only constant in this world is change. But can the same be said for inventions? And even when they have changed, can we assume their change has always been for the better? Hard to say, but one thing is for sure: the invention of the Battle Tower is our best hope of fighting the Dark Lord in the coming years. But will we be ready for the change that the Tower brings? Will it get us our battle for the city? Will it prove itself a weapon in the War For The City? The Game of Change - Building a Custom Battle Tower A very nice game. Seems like a lot more time would've been spent on design. It did have some limited destructibility, but I would've liked to have seen more things get damaged. The level design was also nice, but it did feel a bit linear. The combat was also pretty decent, but of course not enough to carry an entire game. I did like the concept, but I would've liked to have it a bit longer. I would've liked to have seen more levels for the different tower designs, and maybe some more types of enemies as well. The gameplay was cool, I was able to get a grip on it, and I liked that most of my time was spent on building. There was some good customization of the tower. You could change weapon type, and powerups too. The difficulty was difficult enough to make sure I did not get bored, but not difficult enough that I was given the feeling of being overbored. The enemies were not annoying enough, and I would've liked a lot more variety. If the tower can provide enough power, then I would've also liked to see more bosses. There were a few bosses in the game, but they seemed like a bit of an afterthought. The tower was a bit of a tower at times, a bit of a battle tower, and a bit c9d1549cdd
