of the game is an artistic impression of what was written in 16th century chroniclers. The building looks like the building in the painting and the viewpoints into the ground in the picture are a creative artistic concept of the author. The composer took advantage of the VR setting to create a soundscape that is in the style of that period and fits the environment. The characters use a unique instrumentation that was inspired by the instruments that could have been available at the time. The music is inspired by the flute, the clavichord and the harp. *****

City Express:Introduction with the Class 442 Wessex Train Simulator: South West Trains is now part of the much-improved South West Trains franchise, and with the title comes the chance to drive on the London Waterloo to Portsmouth Brighton line. In this scenario you'll have the freedom to go north along the main line to London via Waterloo, but stay on the Brighton line as far as Bognor Regis.The line follows the London to Brighton/Weymouth line as far as Bournemouth, as it was back in 1988.No more 5 Stay put trains, but they do have the option to run over the Bournemouth to Poole and Bournemouth to Poole Airport runs. So if you really want to go over 100mph now you can.Providing you dont mind some British grit in your hair you can get to Gatwick Airport from Brighton, and even up to Gatwick Airport from London.The first part of the journey is flat out, with the option to drop to 125mph for some of the line. The second part of the journey is to slow down at the coast to take on the scudding sea.For more information on the route and line please read our dedicated blog here.We are also on Facebook and Twitter, for the latest updates and news from us.

Scenario Difficulty: London trains are notoriously difficult to pick up, London being a small place. If you do manage to get up to 100mph to get to Gatwick, you need to find an appropriate maintenance stop to visit (please note the way-point is at the maintenance stop at Staplehurst). This is due to the frequency of the road layouts there are no real standard bus stops.But if you are a train enthusiast you can now race, or even overtake, or even join the Brighton Line. If you wish to do this, you need to ensure that your route is quick, use the route planner found on the routes page.Buses are adequate for everything, but we do need to close and open the stations, unlike our normal servers.There are plenty of petrol stations, a few on the London bound line. Read our dedicated blog for more information. If you want a route made please, check out our dedicated blog here.Ride along the coast for the return journey, avoiding severe weather that could put you off. Its no problem to reach Bognor Regis, then head back down to sea level to catch your train back to London.If you liked the scenario, please rate

Official Website: Description: I like to play with new toys.
All I need is someone who loves to play with me. Are you
ready? I am 50 years old and live in a large house on a big
lot. I have three dogs, two cats and four children. I also
love to swim. I love to go to the movies, am a spender
when I go shopping and a Yankee when I go to the
baseball games and watch the weather. I get a lot of
pleasure from being outside, walking my dogs, gardening
and shopping. I don't smoke or drink. I like strong,
independent women to relate to on a personal basis. We
may disagree on some things but respect each other's
wishes and opinions. I am searching for a woman who is
outgoing, likes the things I like, is a good listener and
loves to have fun. I also like a woman who is feminine and
a little spunk with a sense of humor. I like to make women
laugh. I like to make a woman laugh and feel comfortable
with me. Just leave me a message and I will get back to
you as soon as I can. Let's begin our journeys together.
