Ser m és preparado y prepara para la escuela\* «Yo como mayor en una escuela de los domingos y me extraña si la madre y la padre ya estÃin en el trabajo\* «¿Quió se pone a ésta emisora?! . Marca de pop Angel and Gabriel for Windows . The present invention relates to a method of and apparatus for open-end spinning. It is known to open the ends of a package of a sliver to provide an opening that is subsequently drawn off through a feed tube. This has the disadvantage of producing a not very uniform opening size and usually also requires the use of open-end yarn packages having a very thick central portion. It is also known to open the ends of a package opener. When active yarn package openers are used, the result is very high air consumption. It is also known to open the ends of a package with nozzles by means of compressed air. Such nozzles can lead to a relatively small number of failures and are relatively reliable, however they are not without disadvantages. For example, they have a limited length and cannot be used in semi-automatic or fully automatic processing lines. The need for compressed air also increases the cost of such processing lines. It is also known to open the ends of a package by
