Update 2/2016: Arkanoid EX now has a official 2D version, check out the updated trailer here: Update 2015: V2 of Arkanoid EX is almost complete! There are 5 more levels to be programmed. There will be at least one new feature in V2. Bugs are also being fixed all the time! Please be aware that there will be bugs in the game, and there may be code changes depending on what I have programmed at that time. But the game should still play fine in most cases. Also, progress is saved automatically once you reboot your phone. About This Game: Updates happen very rarely. My main focus is to put the game on as many 3DS systems and DS systems

---

as possible. But I'm also updating the website and the game itself. So if you are looking for updates, it's better to just check the website. About this Game: This Game is a continuation of Arkanoid EX. It has it's own levels, and has several different features that Arkanoid EX did not have. The levels are split up in 3 categories: Levels you select when you start the game: 7 x Main Levels, 7 x Mini Levels, 7 x Bonus Levels. The main feature of Arkanoid EX is having the player break blocks. There is a different colored block, and the goal of the game is to break them in order to stop the blocks from being caught by the paddle. But now, every break actually counts. If you break a block, you get to see how many pellets you need to break it. If you break 10 pellets, the block is immediately broken, and you get 1 bonus. If you break 1 pellet, you get nothing. However, you can still try to break the block. The other features of Arkanoid EX were: There was a unique twist called the Arkanoid Warp. A ball of blue energy would shoot out, and go through the paddle. If you pressed the paddle right as the ball was falling on you, you could break the blocks and the ball would destroy everything in it's path, instantly. If you made it into the hole at the end of the stage, you got a cool feature called The Bonus Ball. The ball would go all around the level, bouncing off blocks and destroying every block in it's path. If you were on a wall, you would get a cool bonus feature, c9d1549cdd

**Red Killer is a Puzzle Game Available On: Windows  
Language: English Genre: Puzzle Plot: In this game, you will  
explore a world with lots of puzzles in various shapes and  
sizes. What makes this world interesting and unique is that  
some levels will be colorful and cheerful, while others will be  
scary and gross. In order to finish your missions, you will  
have to collect tiny red cubes, which will give you energy.  
You can play Red Killer free and without registration. 84%  
Funny and interesting! My dear players... I told you that  
you'll learn something new every time you play this game. In  
the first time you will think this game is not really good, but  
you will see at the end that there are lots of wonderful  
things in it, I'm sure... If you like puzzles, be sure to play  
Red Killer... and don't forget to rate it and tell your friends  
about it! Thanks! Rated 3 out of 5 Ralf (verified  
owner)-23/12/2016 Good game very intuitive I would only  
give 4 points, I feel that the game should be a bit faster, but  
all in all it's a very good game Rated 3 out of 5 GameSpar  
(verified owner)-23/12/2016 All comments are honest. Red  
Killer is not a bad game, It's simple, and good for a small  
game, perhaps i give it 5 points. Rated 3 out of 5 GameSpar  
(verified owner)-23/12/2016 (Updated 21/04/2018) First of  
all, I want to apologize for that, I just closed my game and  
forgot to put this comment :/ I had a few problems with the  
game. 1 - I didn't have enough informations to finish the  
game. I had problems with credits, and with the collines. I  
had the possibility to see the next goals, but I didn't had the  
credit to progress. So it's not a big deal, I simply finished the  
game, I had 4 more hours of gameplay. 2 - There was a big  
problem with the minigame, for the coloring game, there**
