It is the entire laser scanner or the firmware for one laser and perhaps the controller? It has been years since I have purchased anything but I thought I would ask in case I wanted to see if I am lucky to find a new scanner part for this. I know my Laser will be cailled by focusing optics but I see lasers with built in optics too. How much difference would there be between those that use a lens or just the laser? What are they called and what part of the scanner or controllers can I upgrade?A spring trick is a special variation on the standard goblet squat which utilizes the spring to create momentum by taking the weight off the front knee in the one-knee position and dropping the rear knee to the ground while keeping the hips and back straight. The benefits of a spring trick include

the possibility of a deeper squat for more weight. The trick also makes it possible to move directly into a front squat without stopping to sit down, which is a common limiting factor for many beginning squatters.
