Locations. Hi everyone! I'm looking for an affiliate or affiliate manager to hire for my small dropshipping company. I have an established affiliate program and is actively-developed, but I'm looking for someone to help me take it to the next level. It's a very small program and currently only a few affiliates are active, so it's quite passive. No need to sign up for anything, it's free. There's always room for new affiliates. The program's main purpose is to drive traffic and sales for products that I'm trying to sell - it's more of a fun way of earning some extra cash. I've been working on it for the past few months and it's finally on the verge of being launched! I've made it quite easy to manage and I believe that it's the safest affiliate network on the Internet. It's free to join and free to join, no offer has ever been rejected. There's a small commission on all sales, but I don't really need to pay anyone for that - it's just to keep the network running and make sure the affiliates are happy and making money. Every \$1 that someone earns is more than enough to make everyone happy and cover operating expenses. The commission rate is calculated automatically and does not change regardless of the amount. The recommended payout is between \$20 and \$50, but you can earn more by referring more affiliates. The more affiliates you refer, the higher your payout will be. The payout rate is increasing every month, but it's not a lot. Affiliates
