FOLLOW US @ Q: How to return a promise for side effects in Angular 8+? In Angular 6+, import { Injectable } from '@angular/core'; import { Http, Response, Headers, RequestOptions } from '@angular/http'; @Injectable() export class HomeService { constructor(private _http: Http) {} getMenuPromise() { return this._http.get('').map(res => res.json()); } } However, in Angular 8+, import { Injectable } from '@angular/core'; import { Http, Response, Headers, RequestOptions } from '@angular/http'; @Injectable() export class HomeService { constructor(private _http: Http)

Elden Ring Features Key:

Romantic Story for the World of Fantasy

A Lovely Landscape for Exploration
A Large Variety of Unique Monsters
A Unique Online Play in 3D

1) Begin the fantasy RPG adventure story known as the "Elden Ring" in the Lands Between. After turning back time, Bartrox develops into a counter to his past and evolves into a figure who observes the world and exists between dimensions. A girl who inhabits the Lands Between using her mystical magic wand enters the battlefield. With the adventurers and multiple factions in the world, along with mysterious power that causes fantastic events, the quest to complete Bartrox's mission of thwarting time and eternity begins!

2) Fantasy RPG Adventure Story to be Shown on Television
Art: John Kim Kikoga
P.T./P.A.: Susumu Yamazaki yasarace

3) An Animation For Elkader Ellkader by John Kim Kikoga

5.1.Cast
