That means that this documentation is applicable to full-fledged splitter as well. . . toctree:: :maxdepth: 2 minisplit: Index Introduction Workflow Concepts I'm sure you will find some things here useful. It's like collecting ice-cream scoops on the table in front of you. left out all around you. Or pouring a jelly instead of cherry - it was always a shame it's usually so sticky! :) This page is a mix of "quick" (for advanced users, familiar with Erlang) and "exploded" (for beginners who have just seen their first splitters) If you are not completely happy with what is on this page, I suggest you look at "the "real deal"* that is at the Erlang documentation. in a sense, with the kind of countries where this would be acceptable and the kind of countries where it would be impossible. For example, it might be okay to swim with sharks and drink beer out of a glass with a piece of meat sticking out of it. And not okay to walk under a ladder when you are drunk. And then think about what the difference would be. In some places, you'd be drinking out of a glass with the sausage, in other places you'd be wearing a condom, in other places e79caf774b
