I believe the reason is twofold: 1) A ton of fitness professionals promote an HIIT or Tabata style workout, but they don't have time to do a full fitness session 2) Most of the time your body and mind has just experienced a large amount of stress. This can create an imbalance in your muscles and your mind. Luckily there are many ways to not only ensure you get your workout in, but a great session that works to improve your fitness too! Choose a class that includes a fast pace, and don't hold back! If you are looking for extra motivation you can play your music as you go, or use a water bottle or a sports watch to keep track of your time. Pro Tip: Powerhouse Up Your Workout To increase your effectiveness, add resistance - anything that allows you to push your body to its limits is perfect, from tubes or dumbbells to resistance bands. I usually keep a tube, bar and bands with me in the gym, and make sure I can start a session with some resistance (they will have already been warmed up prior to class). Using Resistance Whether
