Hackers vandalize Wikipedia's entire landing page - shawndumas ===== sibsibsib It's interesting that Wikipedia is more malicious than other sites that have been breached. I'm not sure why that is. --- Arelius The only reason I can see for a vandalism page like this existing (and the truth behind it) is that Wikipedia is notoriously unwilling to delete false or erroneous entries, unless they are actively trying to be malicious. So, within the guidelines of Wikipedia, if someone vandalized your site, you are prohibited from deleting their information, and it's given a special place on your site, lest any vandalism be attributed to someone trying to get attention or change the truth.
