Find out when there are updates here. Add this twitter account: @MenofWarCMHeat Enable mod ported to MoW ... and enable russian language in client settings. To do this, you need to go to the game folder where all your saves are located (for example, in the "My Documents" folder there is a "Battlefield 2" folder, in which you will see the "Saves" folder). In it you will see a folder called "Battlefield 2" which will contain a file called mwdata.ini. Open it with any text editor (such as notepad) and find the line "FolderPath = C:\Program Files\Origin Games\Battlefield 2\saves" in it.
