
New! Hellgate London X64 Dx9 Trainer Download 1 ((EXCLUSIVE))

we require for you to download the trainer first, which will create a shortcut in the game's registration directory. you must move this shortcut to your desktop. then, click the icon of the shortcut and run the application. after the game has been fully installed, the shortcut will be removed automatically from the desktop and you can now play the game. well the rumors of hellgate london pc game is true, its finally here and i got to say i'm a bit disappointed with the version for xbox live now, i tried to activate it 4 times without luck its asking me for dx10. i am using the xbox360 version i am not sure what happened. anyways ill keep trying. well anyways with the new version of hellgate the game graphics are coming along nicely in the single player game. the game has improved a lot since the last version of the game. well maybe its to early to download this trainer, but i was curious what would happen when i tried. my first move was to turn on steam login. logged in to xbox live and it asked me to install it. just thought since steam wasn't being used as steam is off it might have not enabled. so i turned steam on and logged in. yes it was saying steam still wasn't installed, so i installed steam, installed steam on my pc, it worked awesome. i then tried to download the trainer, clicked download, then i got a pop up that said they were down looking for their new servers. so i just stopped and went to bed. got up in the morning and tried to install again and the same thing happened i was getting an error to update my steam. i ended up having to log off of my xbox live account and start a new one but it worked. now when i try to install it, it says there is a new update from steam and i have to restart steam. after i did that, i installed the trainer and tried to log in. again i got the pop up that steam was down. i logged out and tried to log in and it said that it couldn't login me because i had a previous log in. so i tried again, i logged in and my steam was always asking me if i wanted to log on. so yeah, my pc won't let me install the game or the trainer, but i can play steam games using my controller and everything, so i'm just waiting for a way to get the trainer to work.
