lobit Internet Booster Settings

A new router is useful for boosting internet speed due to its advanced settings and methods. image.png. 3. Browser optimization. In the Google Chrome browser, you can use various tools and options to increase your speed. 1. Enable extensions. Enabling extensions in Google Chrome not only slows down your speed but also increases your security. 2. Install Chrome Cleanup. Clearing the cache, deleting cookies and plugins, and deleting your Google Chrome browser history will also help increase your network speed. 3. Network setup. <http://www.sdelay.tv/video/68449.html>
