Macro Key-Pad - With this wonderful application, you can use your Mac's Fn key in addition to the normal Ctrl/Command key for activating and deactivating a selected Mac keyboard macro. With Keymacro, you can use all the functions of a hardware Macro key to create and store macros. All Macros have a unique ID, so you can group them in an application folder. Clipboard - Clipboard can be used to paste images, formulas, URLs, text, commands, text, or other objects from anywhere in your system. The Clipboard Manager lets you insert the clipboard items automatically after you have copied them. You can also move or copy the clipboard items to the Clipboard with the "Move" and "Copy" buttons. Macro Recorder - Record the current system keys and their exact command keystroke for any selected Mac Key-Pad macro. You can also choose the number of times you wish to repeat the macro. The recorder will save the keystrokes to a file in the chosen folder. Instant Animate - This application provides you with a friendly wizard which walks you through all the features of this delightful application and helps you to create a wonderful animation without any hassles. Macro Text - This allows you to record text which you can subsequently copy and paste to a file or email. If you are using Keynote, Numbers, or Pages, you can easily use this feature to insert tables, formulas or charts. Unlimited Undo - Reversal and deletion of actions is almost instant in this powerful application. Each time you undo an action you are given a dialog box which lets you decide if you want to undo one step, or all the way back to the original action. Folders - Create folders to store different types of files, including text, graphics, or other images and make them easily searchable. Folders can also be used to store files created by other applications and save the work you have been doing until you need to resume it.
