RapidAssist Crack+ X64

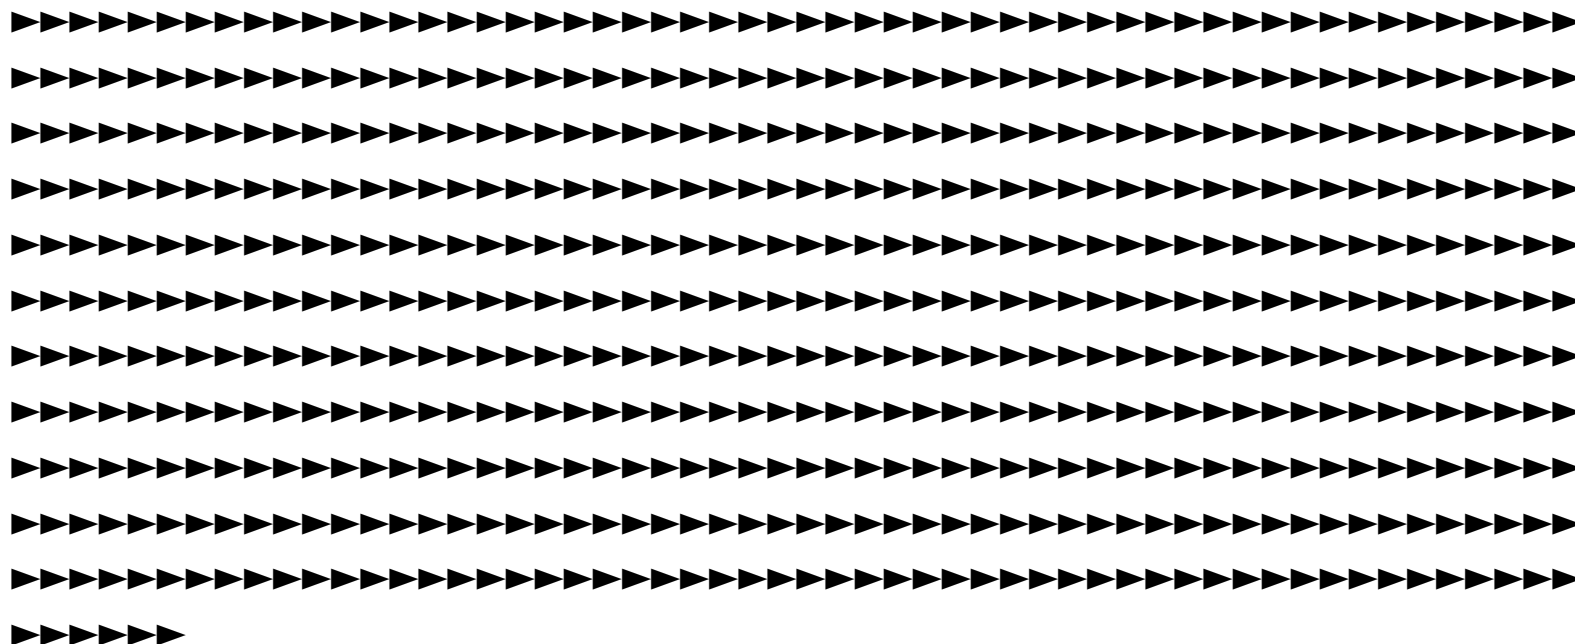

Automatically convert multiple RapidShare links into a single clickable URL. Consistent with the RapidShare service, allow you to enter one or more RapidShare URL links. Online service that allow you to convert any RapidShare link to a clickable URL, given that you have access to the actual RapidShare account of the shared files. Fully responsive and can be used on virtually any device with a browser. Results can be exported to a CSV file that can then be imported into any online or desktop tool. You can even try the free version that allows you to use the service to convert up to 50 links. RapidAssist is a simple, yet powerful online service that enables you to convert RapidShare links into a clickable, direct download links that are then immediately imported into any of your favorite download management tools. Free download with no limits.

RapidAssist - All You Need To Know: RapidAssist is one of the many online services that enable you to convert RapidShare URLs into a clickable and direct download links. These links can then be pasted directly into any download management tool, without the need to manually enter each URL one by one. RapidShare URLs are not clickable and users are forced to enter each of them separately into a separate browser tab or window to download the files. This can be both annoying and time-consuming, especially when the files are shared with hundreds of users. RapidAssist works by automatically converting the RapidShare URLs into a single clickable link that is then copied directly to the clipboard. RapidAssist is a simple and easy to use application that requires no technical knowledge and no installation. RapidAssist is a free application and is totally secure, as it requires a RapidShare account in order to be activated. However, the application does not offer any support to files shared from or uploaded to the account. The only purpose of RapidAssist is to automatically convert the URLs of the files to a valid clickable direct download links that can be then copied to the clipboard or into the browser. RapidAssist is fully responsive and compatible with all screen resolutions and devices. It can be used on desktops, laptops, tablets and mobile devices, including iPhone, iPad, iPod Touch and Android devices.

RapidAssist works by using the Official API of RapidShare that is provided by RapidShare and uses the
